

# BETON TROWEL

CONCRETE FINISHING  
& COMPACTION

## BTS35H EUROSCREED

- Fast, efficient economical method to accurately screed a concrete floor
- Fully adjustable handles for maximum operator comfort and machine control
- Combination of High Frequency Vibration working in harmony with curved back edge of blade rolls back concrete for easy accurate levelling
- Vibration along the blade brings fine material to the surface ready for finishing or texturing
- Vertical drive system with clutch for gentle drive take off. No flexible shafts
- Light enough to float over concrete without roadforms
- Screed blades interchangeable with other leading make units

### SPECIFICATIONS:

- Engine: Honda GX3 4 stroke
- Power unit weight: 12,7 Kg
- Sound Power: 50 dba
- Vibration (handle): <math>< 9\text{m/s}^2</math>

### BLADE OPTIONS:

- BT1200 1.2m 2.9 Kg
- BT1800 1.8m 4.4 Kg
- BT2400 2.4m 5.8 Kg
- BT3000 3.0m 7.3 Kg
- BT3650 3.6m 8.7 Kg
- BT4200 4.2m 10.2 Kg
- BT4950 4.9m 11.6 Kg
