## ACRYLIC POLISH KIT

**SUPERIOR** ★★★★★☆

Handy kit in PET packaging with euro hole contains one tube (125 ml) of Dur Plastic Polish, sandpaper, sponge and cloth.

**Content:**

- 1 tube Dur Plastic Polish
- 1 sandpaper
- 1 sponge
- 1 cloth

		 pc.	Acrylic Polishing kit	RRP
ml	à	Order-No.	€	
125	10	1203600001		

### How do I apply the acrylic and metal polish?

Wet-sanding with sandpaper (only for acrylic), apply and rub with damp sponge, clean with soft cloth. Done!

# CORDLESS IS KING

More power, longer battery life and no cables: the new generation of cordless power tools, make work easy, even if there is no electricity socket available. Battery life and the actual performance of these tools, has made a huge leap in recent years. Cordless power tools are now an alternative for a whole range of users.

Whether on construction sites, or for plumbing, HVAC, janitor services, firefighting, road service and other mobile units, cordless power tools are now considered an essential piece of equipment.

## Important:

Please note that our cordless powertool accessories are also suitable for variable-speed angle grinders.

## Why special tools?

Cordless power tools are commonly used by mobile services, where the full range of accessories is not available. Users therefore need universal tools which can tackle a variety of tasks on different materials. In this way the amount of accessories to be carried along on a construction site can be reduced when working on steel, stainless steel and wood.

Commonly cordless angle grinders run with a 30% reduced working speed compared to usual angle grinders. Having specifically developed accessories for common cordless power tools means that the perfect result of brushes, grinding or cutting discs can be reached with a speed of 7,000 to 8,000 RPM. Osborn Brushes are lighter and therefore prolong the battery life between recharges by 20-25%.

## Advantages

- Low weight
- Precise working
- Multifunctional
- Easy to handle
- Reduced imbalance and vibration
- Longer battery life (20-25%)
- Fewer charging cycles
- Universal usage on all materials
- Can be used for different materials

# WE MAKE IT EASY FOR YOU!

OSBORN has developed accessories which are flexible in use, light weight, easy to handle and assure highest precision.

The end result will meet all your expectations and fulfill all aspects of work safety. This is the only way to work effectively and get the best out of your cordless power tool.

## SISAL/CLOTH AND NOTIFLEX® FOLDED BUFFS

### SUPERIOR ★★★★★

Folded buffs made of impregnated sisal/cloth or NOTIFLEX® fleece (hard) or NOTIFLEX® fleece (soft). Diameter 100 mm with M14 thread for easy mounting on variable-speed angle grinders and cordless tools. For cutting, polishing and colouring.

- Single buffs packed in PET with euro hole
- Short application description on the packaging

#### Important:

Recommended working speed on cordless power tools is 3,500 min<sup>-1</sup> or level 1 for variable-speed angle grinders. Add polishing compound continuously.

mm				sisal/cloth	RRP
Ø	G	min <sup>-1</sup>	à	Order-No.	€
100	M14	9000	7	L940030842	

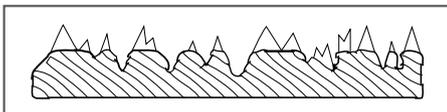

mm				NOTIFLEX® Fleece hard	RRP

100	M14	9000	7	L911000436	

### APPLICATION GUIDE:

#### CUTTING WITH SISAL/CLOTH

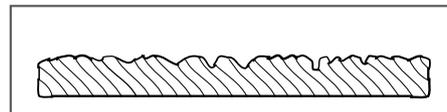

- Use polishing compound white for steel and stainless
- For brass and copper start with step 2 (polishing)

Removing defects and scratches

#### POLISHING WITH NOTIFLEX® FLEECE HARD

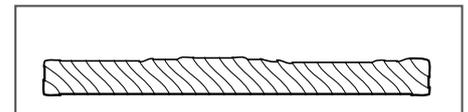

- Use polishing compound white for steel and stainless
- Use polishing compound brown for brass, copper and aluminium

Removing traces of cutting and blending the surface

#### COLOURING WITH NOTIFLEX® FLEECE SOFT

- Use polishing compound blue for all materials

Achieving a high-gloss surface

## POLISHING KIT, 6 PC.

### SUPERIOR ★★★★★

Perfectly matched 6 pc. kit for cutting, polishing and colouring steel/stainless, brass, copper and aluminium. Diameter 100 mm with M14 thread for easy mounting on variable-speed angle grinders and cordless tools.

- Handy PET package with euro hole and application guide

#### Content:

- 1 sisal/cloth (cutting) folded buff
- 1 NOTIFLEX® fleece hard (polishing) folded buff
- 1 NOTIFLEX® fleece soft (colouring) folded buff
- 1 polishing compound white
- 1 polishing compound brown
- 1 polishing compound blue

#### Important:

Recommended working speed on cordless power tools is 3,500 min<sup>-1</sup> or level 1 for variable-speed angle grinders. Add polishing compound continuously.

mm				Polishing kit, 6 pc.	RRP
Ø	G	min <sup>-1</sup>	à	Order-No.	€
100	M14	9000	6	8603600006	

### APPLICATION GUIDE:

#### STEP 1

##### Cutting, removing defects and scratches

Use polishing compound white for stainless and steel and brown for aluminium. For brass and copper start with step 2 - polishing.

#### STEP 2

##### Polishing - remove traces of cutting and blending on the surface

Use polishing compound white for steel and stainless. For brass, copper and aluminium use compound brown.

#### STEP 3

##### Colouring - achieving a high-gloss finish

Use polishing compound blue for all materials.
