

ASTRO

Air Supplied Blast Helmet

AIRBLAST

The Astro Blast Helmet is a compact lightweight blast helmet with a large flat lens which provides excellent vision without distortion.

The Astro Blasting Helmet is your number one economy choice which meets standards worldwide including CE, Australian Standards and is approved by NIOSH.

Lightweight means less fatigue, the Astro Blasting Helmet only weighs 1.2Kg.

Each part on the Astro Blasting Helmet can be easily replaced using conventional tools, reducing downtime if you need to replace parts it can be done on the field.

Tear off Lenses

The Tear off Lenses system is a unique system of pre-folded tabs. This means workers can quickly tear off just one, layered, lens at a time. Contractors have reported a time saving of over 45 minutes a day per blaster using the Tear off Lenses system, and a resulting increase in productivity.

Features:

- Removable head suspension
- Sturdy visor frame with integral molded hinge
- Optional tear-off lens available
- Low flow indicator
- Hand strap
- Abrasive resistant polyethylene helmet shell
- Flexible breathing tube
- Flow control valve
- Replaceable cape cover band
- Durable nylon cape

ASTRO Assembly

Part no.	Description
4600000	Astro blast helmet, consist of helmet assembly, breathing tube, regulator and nylon cape
4600100	Astro blast helmet, same as above only with leather cape

ASTRO Parts List

Item	Part no.	Description
