

» STR 500 Grinding – Polishing – Crystallization – Cleaning

Versatile use with ...

... ETX diamond tools

... resin bond diamond pads

... sanding discs

... cleaning brushes

STR 500 – Grinder and polisher

With a Trio planetary gear drive, the STR 500 is a combination of a heavy duty single disc machine and three head grinding machine. It is ideal for cleaning, grinding and polishing of concrete, screed, wood and natural stone floors.

Depending on the machine selected, the STR 500 grinder and polisher comes in a package in combination with the following:

- ES 51S3 or STR 702S single disc machine
- SB Trio planetary gear drive with 3 ETX carrier \varnothing -150 mm
- DIF Diaflex
- Water tank 10 l
- Suction and splash guard ring

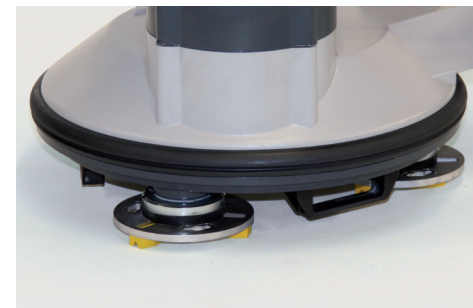

Application

Grinding and polishing of concrete, screed, marble, terrazzo and wood floors, surface preparation, cleaning and crystallization

Features

- Grinding and polishing is 4 times quicker
- ETX easy tool exchange
- DIF Diaflex-soft (automatic tool adjustment)
- Extremely versatile
- Metal gear drive
- Working close to edges
- Splash guard and suction ring
