

More Muscle to Get the Job Done

Removing steel or wooden fence posts, crash barriers, or concrete foundations? With 6 tons of pulling power and an automatic chain-tightening clamp, the CP post puller has the muscle you need to get the job done.

The machine accepts a wide range of different shapes and, if needed, you can use a separate hand lever to add another 4 tons of pulling force! The CP post puller can be powered by a hydraulic power pack, or connected to a hydraulic outlet on a truck, excavator or loader.
