

PC-9-PS

ProfCut™ Double Edge Pull-Saws for Wood and Plastic

PRODUCT DETAILS

- For fine, cross, angle and rip cut
- The pull action allows for a thin blade (0.5 mm) for minimal removal (kerf 0.75 mm) requiring less force
- Extra-fine hard point JT teething on one side of the blade is perfect for fine, angled and cross cut in wood as well as in e.g. plastic tubes
- On other side of blade progressive rip cut teething of a more coarse type is designed to perform when cutting along wood fibres
- The flexibility of the blade makes it possible to perform excellent cuts close to another surface
- Two-component plastic handle ensures a comfortable and safe grip
- PC-9-9/17-PS-B Replacement blade
- Comfortable screwed two-component handle
- Double edge fine cut Pull-saw for fine, cross, angle and rip cut
- extra fine hardpoint, triple edge JT tooth design
