

STS 260 – Suitable for construction, concrete, grinding and plaster dust, H certified

With standard pre-filter and HEPA filter. Filter cleaning through air pulse process. With 3-stage dust filtration: 1st stage for coarse dust, 2nd stage with 99.9 % via a polyester pre-filter, 3rd stage via 2 x HEPA filters with 99.995%. Dust is collected in a transparent and easily transportable plastic bag (Longbag).

Including hand tube with floor suction nozzle and rubber strip, brush strip, hose (length 5 / 10 m, hose connection Ø 50 mm, antistatic), Longbag and cable ties.

With click system for suction hose attachment

Dust separation in Longbag

Technical data

Ref. No.		617001
Voltage	V	230
Frequency	Hz	50/60
Power input	kW	2,2
Operating weight	kg	55
Dimensions L x W x H	cm	73 x 48 x 138
Noise level	dB(A)	78
Suction hose, antistatic	m	5
Ø – suction outlet	mm	50
Underpressure	kPa	23
Suction capacity	m ³ /h	340
Filter cleaning		manually
Filter class		HEPA 14

Special characteristics

- Robust in design
- Dust separation in Longbag
- Large abrasion-resistant transportation wheels
- Certified according to dust class H
- Antistatic hoses
