Automatic switch-on (AUTO ON/OFF)

APL-units are additionally equipped with a socket for connection to the power tool. The vacuum cleaner starts and stops by using the power tool.

The switch for the automatic control is dust protected.

Clean filter

The filter cleaning is done manually by PressClean. Just hold the handle tube closed with your hand, or comfortably place it on the round recess on the suction head, press the button 5 times and the filter is cleaned with a strong air stream.

All units except eCRAFT 1422.
